

It's a Wired World

Pre/Post Test

Directions: Circle the correct answer.		
 Which of these describes the correct path election a) generating plant, transmission lines, substable distribution lines, transmission lines, generating plant, substation, distribution lines, generating plant, substation, distribution lines, generating plant. 	tation, distribution line erating plant, substatio lines, transmission line	es n es
2. You should never experiment with householda) you might damage a nearby power plantb) you might waste electricity		
3. Almost anything can become a conductor of ea a) rubberized b) encased in glass	electricity if it is c) wet	d) hot
4. Electrocution meansa) fatal contact with electricityb) when the flow of electricity is cut off	c) mild shock d) when a fire begins	
5. A short circuit is dangerous becausea) the wires are too shortb) people can get shocked or killed	c) it can cause a fire d) both b and c	
6. A circuit stays on if the electricity flows in a a) circuit breaker b) continuous circle	c) electrical panel	d) straight path
7. Why are overloaded outlets dangerous?a) you might trip over the wiresb) they might ruin your appliance	c) they are a fire hazard d) they waste energy	
8. Never enter a substation because a) you might block the electrical flow b) the air is too hot c) you will set off alarms d) you might get shocked or		
9. Some effects of electrical shock on the humar a) burn b) pain	n body may be c) death	d) a, b, and c
10. If there is an electrical fire you shoulda) call 911b) tell an adult who may use a proper chemical fire extinguisher		c) spray it with water d) a and b only

It's a Wired World

Answer Key

Information that relates to each question can be found on the pages listed below.

- 1. a) generating plant, transmission lines, substation, distribution lines. Page 2
- 2. c) you might be seriously hurt or killed. Page 3.
- 3. c) wet. Page 5.
- 4. a) fatal contact with electricity. Page 5.
- 5. d) both b and c. Page 7.
- 6. b) continuous circle. Page 9.
- 7. c) they are a fire hazard. Page 10.
- 8. d) you might get shocked or electrocuted. Page 11.
- 9. d) a, b, and c. Page 12.
- 10. d) a and b only. Page 13.
